PELVIC REPAIR SYSTEM PRODUCTS LIABILITY
LITIGATION*

THIS DOCUMENT RELATES TO ALL CASES

**PRETRIAL ORDER # 51
(AGREED ORDER RE: PLAINTIFFS' MOTION TO COMPEL
AMS TO PRODUCE DOCUMENTS [ECF 466])**

1. On February 14, 2013, Plaintiffs filed their Motion to Compel Production of Documents. (ECF Nos. 466-467)
2. Defendants filed their opposition on February 28, 2013. (ECF No. 486)
3. Counsel for Plaintiffs and Counsel for Defendant American Medical Systems (AMS) have met and conferred and resolved the disputed issues, rendering the Motion to Compel moot. Accordingly, it is **ORDERED** that Plaintiffs' Motion is **DENIED** as moot.

The parties agree as follows:

4. At Plaintiffs' request, AMS produced an interim cross-reference index identifying documents produced in the MDL that were also previously produced in *Ambroff* and *Boatman-Morse*. The index identifies documents with an *Ambroff* production range and corresponding MDL bates numbers. AMS agrees to produce a final index when production is complete.
5. At Plaintiffs' request, AMS produced a list of video and audio files produced to date identifying the title of video/audio, date of video/audio and corresponding Bates number on February 27, 2013. At Plaintiffs' request, AMS agrees to supplement and update this list as document production continues.
6. At Plaintiffs' request, AMS agrees to supply new load files to provide metadata for attachments related to lab notebooks and document and pages on March 4, 2013.
7. AMS and Plaintiffs will meet and confer regarding the appearance of redactions.
8. AMS will replace the following production sets due to a vendor error, October 16, 2012 (MDL AMS D0120086-MDL AMS D0244954) and November 30, 2012 (MDL AMS D0806637-MDL AMS D1010044), and will provide a cross-reference index by March 4, 2013. AMS and Plaintiffs have agreed to discuss the costs Plaintiffs might incur as a result of this vendor error and will meet and confer after March 4 if necessary.

9. At Plaintiffs' request, AMS agrees to provide a supplemental separate metadata field with file names, including for e-documents on March 8, 2013.
